

WiFi is no longer an "extra" for most homes.

It has become a critical component of connectivity.

Think about the number of wireless devices being used by your family and friends in your home.

You need a wireless connection that is reliable and secure, and consumer-grade WiFi access points are no longer adequate to meet the needs of most environments.

Take Control of Your Wireless Home Network Total Wi-Fi and the NetValet App!

Total Wi-Fi

Take control of your home wireless network.

Committed to Quality Service and Support

WHAT IS TOTAL WI-FI?

Total Wi-Fi from GTel is your local answer to the challenges of finicky and unreliable wireless connections in your home.

The first step is for us to conduct a site survey at your location, along with gaining some information on your coverage and usage needs. Next, we will provide you with detailed recommendations regarding the location and number of access points required to meet your needs.

You get it all with Total Wi-Fi

- Predictable Wi-Fi performance
- Ease of deployment and scalability
- Local service and support
- Extended range and coverage
- Enterprise-grade equipment

BENEFITS OF TOTAL WI-FI

Low, Predictable Cost

There is no huge upfront investment in Wi-Fi equipment. We maintain and enhance the service for you, so there are no surprise costs for maintenance, upgrades, or replacements

Flexibility

The flexible infrastructure can grow as the needs of you and your family grows. Need additional coverage? No problem. We can easily add additional Wi-Fi access points throughout your home for no additional monthly fee.

Cloud-Based Management

Your wireless network is at our fingertips with our cloud-based management portal. This gives our technicians real-time data on your access points, coverage areas, connected devices, data usage per device, and more.

Ability to Accommodate Visitors

Easily add a guest network to keep your business and customer traffic separate and highly secure.

Local Technical Support

You get help when you need it from a local company that you know and trust.

SERVICE OPTIONS

With *Whole-Home Total Wi-Fi*, you get a FREE* in-home evaluation from our trained technicians with individual recommendations to best meet your needs. We'll install a high-quality, dual-band, 802.11ac wireless router in a centralized location of your home, and up to 3 additional Wireless Access Points (WAPs).

You can also rest easy knowing you've got a local and experienced customer support to help you whenever you need us. *And*, you'll NEVER pay for a service visit from our experienced technicians to troubleshoot or help assist in connecting new or existing devices.

If our equipment ever fails to function properly, you get FREE** replacement of the router and access points for the life of your service.

Don't need all that coverage? Our base level Total Wi-fi includes a personalized site evaluation, our dual-band router and one additional access point for only \$8.95 per month.

*With 12-month service commitment.

**Excludes damage caused by customer negligence.
